

Press Release

Integrate macOS into your Slack experience using Shrugs.app

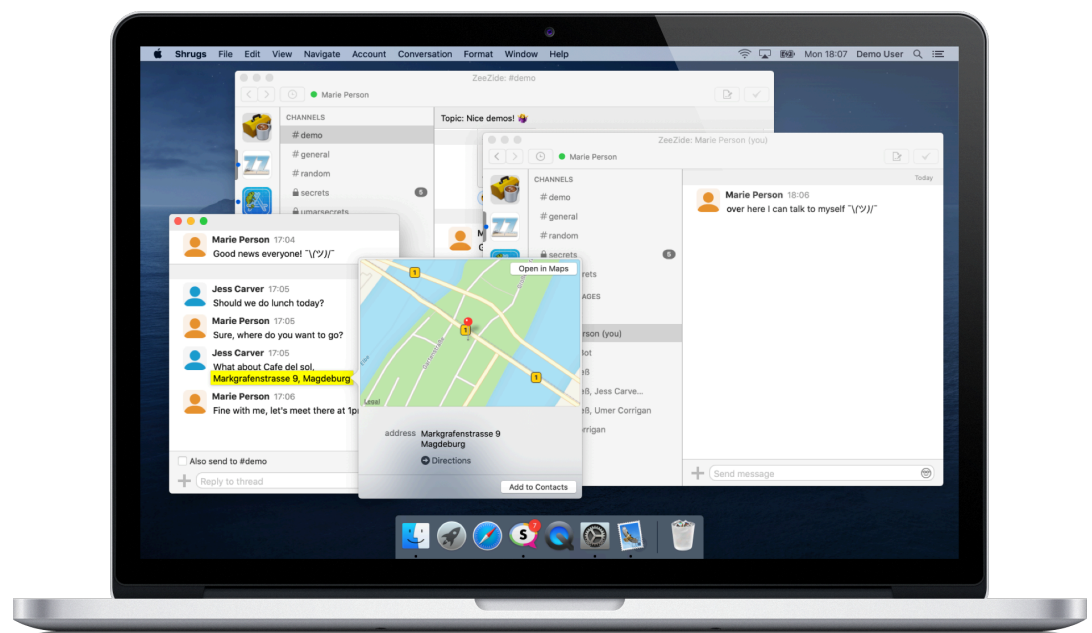

MAGDEBURG — May 27th, 2020

ZeeZide GmbH is happy to announce the release of **Shrugs.app**, a native macOS application complementing the official Slack one.

Shrugs.app is a companion to the capable official Slack client by providing deep integration with the macOS system: Multiple windows, trackpad gestures, or iDevice integration using Continuity.

With its low memory footprint, Shrugs can be used as your daily driver to connect to the award winning team collaboration service, as an effective companion to the powerful official Slack app.

Shrugs is available as a free download for testing and account setup. A per-user license is a \$19.99 one-time purchase. Project supporters can purchase a \$49.99 license which includes access to the beta program. Please visit <https://shrugs.app> for more information on Shrugs.

Shrugs is a product developed by [ZeeZide](https://zeezide.de) GmbH, a software development and consulting company founded in Magdeburg, Germany in 2015.
